AN INTERACTIVE RESUME

A "Resume", but not at all like the normal ones, because of its interactive and dynamic nature. It has got loads of attractive links, good looking image slideshows and, last but not the least a "Chatbot", which makes the site credible to be named as "An Interactive Resume".

Plastic bags are a major cause of environmental pollution. Plastic as a substance is non biodegradable and thus plastic bags remain in the environment for hundreds of years polluting it immensely. It has become very essential to ban plastic bags before they ruin our planet completely. Many countries around the globe have either put a ban on the plastic bag or levy tax on it. However, the problem hasn't been solved completely because the implementation of these measures hasn't been as successful.
